

FS121/FS138 FALCON

The FALCON Series

When you need considerable work height combined with limited or narrow access and maybe even surface pressure restrictions, nothing outperforms the new FALCON series. In a field dominated by traditional boom lifts, the FALCON series sets a new standard for compact, flexible and light aerial work platform design. The new design is not only elegant, but also makes it the most user-friendly and safe unit in its class.

- Available in 9 models from 85ft - 138ft
- Most models available in wheel or track version
- Pass through a single or double door opening
- First and only compact lift with a double jib system
- Automatic outrigger setting (optional)
- Drive from basket (optional in wheel based lifts)
- Automatic, double safety and stability system
- Multi position outrigger system
- Set up on uneven surfaces
- Lightweight, detachable basket
- Self loads onto low bed trailer
- Customized trailer available upon request

Model	FS121	FS138
Working height	121ft	138ft
Basket height	115ft	132ft
Max outreach	53ft	54ft
Jib arm (2x10ft)	20ft	20ft
Double jib arm	200°	200°
Basket load	440lbs	440lbs
Basket dims	4'7" x 2'7"	4'7" x 2'7"
Basket rotation (opt)	+/-90°	+/-90°
Turret rotation	375°	375°
Height	6ft6in	6ft6in
Length	26ft7in	27ft0in
Width	2ft11in	2ft11in
Gradability (standard)	5°/10%	5°/10%
Footprint (adjustable)	18ft4in	18ft4in
Weight (approx)	15,840lbs	17,600lbs
Max pressure, tires	84psi	97psi
Max pressure, footplate	39psi	43psi
8 battery pack	Standard	Standard
24V DC motor	Standard	Standard
Lombardini diesel engine	Option	Option
Honda generator	Option	Option

FS121

FS138

FS121/FS138 FALCON

Standard Equipment

- Automatic stability & outreach control
- Computer controlled (can-bus)
- Proportional control of all functions
- Self propelled
- Battery powered with charger
- Double jib arm
- 375° non cont. turret rotation
- Individual setting of outriggers
- Elec. checking of the power system
- Manual pump for emergency lowering
- Self-load onto trucks and trailers
- Adjustable wheel axle
- Min. width of only 2ft11in
- 2 person basket
- Space for tools etc in basket
- Storage room in chassis with lock
- Dual axle (reduces ground pressure)
- 4 wheel drive
- Portable control panel for the chassis

Optional Equipment

- 180° (+/-90°) basket rotation
- 110V AC power to the basket
- Air/water to the basket
- Distance sensor on the basket
- Wind sensor on the basket
- Lombardini diesel engine
- Honda gasoline generator
- Extra batteries
- Autosetting/leveling from basket
- Chassis control from the basket
- Sliding boxes for outriggers
- Special color
- Height control switch
- Extra narrow outrigger setting (8ft5in)
- Baskets in various sizes
- Slope alarm
- Main boom raised max 6ft while driving
